

## **Rules and Regulations for checking Similarity Index (Plagiarism)**

- The term papers for Undergraduate and Postgraduate students will be checked by URKUND software provided by INFLIBNET, as long as the facility is available to the library.
- Turnitin software will be used for generating similarity report/originality for content in English and other European languages.
- The Central library will only entertain the drafts of M.Phil and Ph.D dissertations and theses for checking originality(Plagiarism).
- The library will check the drafts of theses and dissertations **twice only**.
- As per UGC regulation, the Similarity Index (SI) of the dissertation and theses should be 10% or less, so in case the SI is 10% or less the same will not be re-checked by the library.
